Fidget colourful educationnal ball

Danawares The colorful educational balls are a fun and challenging educational toy that can be moved into countless shapes to create your own art. These 20 interconnected balls have flexible joints that allow them to easily twist while remaining strong enough to stay upright. Each ball has been painted in complementary and matching vibrant colors, and they have been polished to leave no rough edges. These educational balls allow you to build elegant 3D geometries or form asymmetrical 3D sculptures with a myriad of colors and combinations. Not only are they fun, but they can also help adults relieve stress and children improve their imagination and cognition of color shapes. Made of high-quality plastic, these colorful educational balls are durable and resistant. They are perfect for schools, birthday parties, or just playing at home. With their creative construction and educational potential, these colorful educational balls are an excellent choice for anyone looking to stimulate their creativity and cognition. Can also be used to hold your phone. 4+ years
