Meccano Jr. - Bucket of 150 pieces

Meccano Give your child everything they need to build unlimited creations with the Meccano Junior 150-Piece Free Play Bucket! Ideal for first-time builders, this STEAM building kit comes with an easy-to-follow instruction sheet for three different builds to inspire creativity. With redesigned parts and tools, it's easier than ever before for kids to build a car, robot, space shuttle and more! Kids can snap nuts onto parts to make them lock; and use the bolts to hold pieces together and stay in place as they build. As your young inventor assembles their very own creations, they'll learn how principles of science, technology, engineering, arts and math are practically applied. Once they complete their first build, kids will feel an incredible sense of satisfaction! With so many pieces to use, your child can let their imagination run wild to assemble their own creations (all while building confidence). Proudly display your child's new builds or attach the tools onto the lid and store the pieces in the reusable bucket for later. With the Meccano Junior 150-Piece Free Play Bucket, the building possibilities are endless! Includes : 150 Parts 2 Tools 1 Plastic Bucket 1 Instruction Sheet

Game Barrel of Monkeys

Spin Master Create your own chain of wild monkeys with Monkey Barrels! These little monkeys have gone crazy, and when you throw them all into a big pile, they all get tangled up with their arms. Can you pick up one monkey and then pick up another with the first monkey's arm? The challenge is great: grab a monkey by the arm and start forming a chain by grabbing another monkey with the arm of the last monkey in your chain. Keep adding monkeys to the chain in the same way. But be careful, the tension mounts with each added link! If a player has the misfortune to break the chain by dropping a monkey already hooked, the turn immediately passes to the next player. It's a game of dexterity, concentration and suspense that will keep you on the edge of your seat at every turn. Includes : 15 monkeys in 5 different colors 1 barrel instructions 3+ years / 1-4 players / 10 minutes

Game Harry Potter - Catch the snitch - English version

Wizards World English version only Bring all the speed and excitement of a real Quidditch match to your home with Catch the Golden Snitch, a Quidditch game for witches, wizards, and muggles. Everyone plays at the same time as cards are quickly passed from player to player, each trying to build sets and earn points. In the center of the action lies an open Quidditch Chest, with a Quaffle, two Bludgers, and the all-important Golden Snitch. When you lay down certain cards, these magical items come out to play! A pair of Chaser cards lets you steal another player's set, but if you've earned the Quaffle, you're safe. Play a pair of Bludger cards, grab a Bludger, and throw it at a player of your choice -- if they swat the Bludger in air and it hits another player, that player must discard the cards in their hand. The action moves faster than a Nimbus 2000 as cards change hands, sets hit the table, and Bludgers hit their mark. When the Golden Snitch launches from the chest and into the air, grab it - it's worth extra points! The game ends when the Golden Snitch is in hand; the player with the most points wins. For fast-paced action and excitement, play Catch the Golden Snitch

Game Legacy - Mancala game

Cardinal The classic, easy-to-learn strategy game Mancala is one of the world's oldest games, still played and enjoyed by families worldwide. An ancient game beloved to this day, Mancala is the simple yet strategic 2-player game of moving pebbles from cup to cup on the board. Each player picks a side and places 4 pebbles into each of the 6 nearest cups. To play, pick up all the pebbles from one of your cups and drop them one-by-one into each of the next 4 cups. If the last pebble drops into an empty cup on your side, you get to take all your opponent's pebbles in the opposite cup and put them in your end zone (your Mancala). If the last pebble played lands in your own Mancala, you get another turn. Play continues until all 6 cups on one side of the board are empty. Each player counts the pebbles in their Mancala—if you have the most pebbles, you win! Kids can build basic math and STEM skills while developing strategic thinking. Crafted from wood and featuring eye-catching, decorative finishes, Legacy game sets are meant to be played and displayed for generations. Enjoy with family and friends or give as a lasting gift. Next time you get together

Game Mah Jong Classic

Cardinal Since reaching American shores in the '20s, Mahjong has become the go-to game for generations of classic game fans. American Mahjong, based on the Chinese version, is a four-player game of strategy, skill, and luck, using tiles emblazoned with beautiful Chinese symbols. Similar to the card game gin rummy, the goal is to create sets of tiles that match the tiles of a specific, pre-determined hand, by choosing and discarding tiles from your wall. Our set includes detailed instructions for players who are new to the Mahjong's rules and tactics. The 152 tiles feel just right to the touch, and the dice, scoring chips and wind indicator complete the set with everything you need to play. Spend your next game night with family or friends enjoying the competition of Mahjong, a true game classic. For 4 players, ages 8 and up. Game Mexican Train Dominoes Double 12 - Pack&GO

Spin Master Bring old-fashioned family fun to life with Pack & Go Mexican Train Dominoes. This strategy game is for 2-8 players, so it can be played with a group or as a 2-player board game. Play all the dominoes in your hand to score zero and win the round. The lowest score after 13 rounds wins! The compact Pack & Go travel packaging makes this adult board game easy to take along with you to game night! It is also a great educational tool for children. On your first turn: Start your train by placing a domino that matches the Engine in the Starter Hub slot closest to you. The matching side must be placed towards the Engine. No match? Draw a domino from the Boneyard. Draw a match? Play it immediately. Still not a match? Keep it in your hand. On subsequent turns, add a "playable domino" to your train, the Mexican Train or any "open" trains. A domino is playable when it matches the end of the train you're adding to. No playable domino? Draw and immediately play if you can. If you draw and still can't play, place your Train Marker on top of your train. This signals that your train is "open" and can be added to by the other players. In order to "close" your train, you must find and add a

Rubik's - Snake

Rubik's The Rubik's Snake is a toy with 24 wedges identically shaped like prisms. The wedges are connected, by spring bolts, such that they can be twisted, but not separated. Through this twisting, the Rubik's Snake can attain positions including a straight line, a ball, a dog, a duck, a rectangle, a snake, and many more imaginative shapes and figures. With this two-pack of Connector Snakes, you can snap two or more snakes together to build imaginative creations like a bunny, cobra, dinosaur, or lobster! The more connector snakes, the more endless possibilities in this 3D puzzle. Invented in 1974 by Ernő Rubik, the original color-matching puzzle toy- the Rubik's Cube- was created to help students understand three-dimensional problems. The prototype Magic Cube did things that the world had not seen before. It turned, it twisted and yet it did not break. Adding 54 colorful stickers to the six sides gave the puzzle its iconic look. Over 40 years of history has led the Rubik's Cube to become one of the best-selling toys ever. With the new Rubik's Connector Snake- connect your Snakes and create new forms to become the puzzle master of your house. Show us wha

Rubik's - Cube 3x3 Speed

Rubik's The Cube can be solved in twenty moves, but how fast can you do it? The World Record was set in 2018 at 3. 47 seconds! To get the fastest speeds, speed Cubers learn the sequences of moves that get the Cube to solved, called algorithms. When they see a configuration, they know which algorithms to use to solve the Cube. Speed Cubers also train their hands to move as fast as possible, to achieve astonishing completion times. Think fast and move fast! The improved design now uses magnets to add stability and act as a positioning system, to help align the Cube for the next twists and less fiddly turns. The speed Cube features a stronger core and has a mechanism designed to make it faster, smoother and more reliable than ever. No more frustrating snagging or popping core. The Speed Cube comes pre-lubricated to help you get faster times, and more can be added when needed. The traditional stickers have been replaced with original and eco-friendly ABS material, which means no fading, no peeling and most importantly no cheating. Play a new twist on the classic Rubik's Cube with a game made to challenge your flexible thinking, speed, and problem-solving skills. Flip over a Gridlock challenge card to reveal your puzzle, and place the fixed starter blocks as shown on the challenge card. Your goal is to figure out how to place all of your remaining blocks on the board without moving the starter blocks. There is only one way to solve the puzzle for each challenge card, so choose your next moves wisely! Play by yourself or with a partner to try to solve the puzzle as quick as you can! Gridlock includes a travel case, 11 blocks, and 88 different challenge cards separated into four difficulty levels for ages 7 and up. A must for puzzle lovers and fans of Rubik's Cube, Rubik's Race game, brainteasers, puzzles for adults and kids puzzles and makes the perfect gifts for men, gifts for women, and gifts for teens.
